

"Returning to school is vital for children's education and for their wellbeing. Time out of school is detrimental for children's cognitive and academic development, particularly for disadvantaged children. This impact can affect both current levels of learning and children's future ability to learn, and therefore we need to ensure all pupils can return to school sooner rather than later."

What does the school look like?

- We want the school to be welcoming and as 'normal' as possible.
- It is important that school is a safe place for students however it is equally important that it is not 'clinical' and retains the features a school should have.
- We have ensured the school has been thoroughly cleaned and have spent significant time considering the lay out and operation of the building to meet current government guidance.
- We have enhanced our hygiene facilities ensuring there are multiple hand sanitising stations throughout the main corridors
