

Year 10 Geography Revision

As we approach the summer ROA (Rank Order Assessment), I would like to outline how Year 10 students can prepare effectively.

Students will receive **1–2 dedicated revision lessons** in class, where they will be provided with revision materials and guidance. In addition to this, students should revise independently using:

- Their **class books**
- **BBC Bitesize**

To support targeted revision, please note that content differs slightly by teaching group:

RRO Classes:

- All Paper 1 topics, including:
 - Natural Hazards
 - The Living World
 - Rivers
 - Coasts

RAK Classes:

- Paper 1 topics with some adaptations:
 - Challenges and Issues of the Urbanising World
 - The Living World
 - Rivers
 - Coasts

Students should focus on revising key case studies, understanding processes, and practising exam-style questions. Use seneca, BBC bitesize or exercise book and past papers.
